Okay, great. Thanks again for linking me to this project. So how about this:
“We are very pleased to present a presentation celebrating the completion of our new rollout. Some of the themes we are hoping to be exploring include architecture workflow; the manufacturing of boredom and consent; labor inflation in the management sector; the origins and impact of the Overton Window; and to no small degree, humor as a coping mechanism. Thank you for considering your attendance.”

Hi Simon,

Thanks for your message. Sounds exciting! Could you tell me a little bit more about what you have in mind? Or perhaps the desired length? Looking forward to hearing back!

Hello Mark,

I'd like to catch up as I'm working on a really exciting project , but I need something from you. Basically a quick description with accompanying chart, something for prospective clients. It'll be out on the desk and online. If it goes well maybe some money in it for you.
